

Trendz: 2nd part of a European tour more sparkling than ever!

Change in continuity!

After a sold-out tour in Europe last spring, Trendz returns with a new title, a new style for 5 European dates with a highly anticipated stopover at the festival «Art to play» in Nantes on November 15 & 16. Amsterdam, Helsinki, Vienna, Warsaw and Athens are the other stages of this tour. Zoom on a group that shines with all its lights.

Managed by Global H, the 7 members of the group: Havit, Leon, Yoonwoo, Hankook, ra. L, Eunil and Yechan are again on European roads from November 15, 2025. This second part will allow fans who do not yet know them to discover them, notably in Austria, Poland, Finland and the Netherlands. They will find Athens who has already welcomed them with great fervor. In each city, they will innovate new ways of meeting with fans while also presenting their latest title: Crime.

Change in continuity

With Crime, TRENDZ operates a strong narrative shift but which nevertheless remains in the continuity of their innovative and impactful style.

In a trap and cinematic production, the members of TRENDZ present themselves as charismatic antiheroes — dangerous but irresistible—who drag the audience into their world where rules no longer matter. It is about evoking the exceeding of limits as part of an attraction so powerful that it seems illegal.

A rap with nervous and syncopated flow, a narrative style highlights the artistic maturity of TRENDZ, now capable of combining choreographic intensity and well-marked narrative universe. It's a change in continuity! Expected release of the title and video: October 29, 2025 at midnight Korean time.
