

GAHO in Europe: Cityscapes – New Horizons

A singular artist at the heart of a new Korean live music scene

From April 5 to 18, 2026, Gaho will embark on his first European tour, performing across several cities. This tour will introduce his new tracks and the evolving musical direction he has developed alongside KAVE.

A distinctive figure in the Korean music landscape, Gaho stands out with an atypical trajectory, at the crossroads of pop and rock. The material he works with precision is emotion, which he transforms into powerful and deeply embodied performances.

Known to the general public for his contributions to several successful drama soundtracks, he has, in recent years, developed a more open, more direct artistic identity, where the stage becomes a space for raw expression.

Unlike many artists emerging from the K-pop industry, Gaho does not follow a fixed format. He explores, experiments, and takes risks. His approach is instinctive, spontaneous, and deeply rooted in live performance.

On stage, this singularity fully comes to life: surrounded by musicians, he delivers a true concert experience in the fullest sense of the term. A rare configuration in this scene, giving his performances an organic and immersive dimension.

An energetic and immersive live experience

In mid-sized venues (600 to 1,500 capacity), Gaho and KAVE create a vibrant sonic universe where rock energy meets strong emotional intensity.

Each performance allows space for unpredictability, breathing, and interaction with the audience.

This closeness creates an immersive experience, far from standardized formats, and strengthens the direct connection with the crowd.

A new perspective on the Asian music scene

Gaho's European tour marks an important step in his international development. It comes at a time when Asian music scenes, long dominated by K-pop, are opening up to more hybrid and personal artistic expressions.

At a moment when media attention is heavily focused on major figures of the genre, Gaho offers an accessible alternative, allowing a different perspective on the current dynamics of Korean music.

His presence in Europe provides an opportunity to discover an artist in motion, whose path and artistic approach reflect a broader evolution within the Asian music landscape.

Practical information

Ticketing:

Polymanga: €55 (festival + concert access)

<https://infomaniak.events/fr-ch/shop/polymanga-2026-FRG6R7GZUV>

About the production

About Envol Production

Envol / Torpedo is now one of the most recognized concert promoters in Europe, ranking among the top ten for Asian live shows. A pioneer of K-pop in France for over fifteen years, the company has established itself as a key touring partner for Korean and Japanese agencies, with a specialization in mid-sized venues (700 to 10,000 capacity).

About 5 Oceans Entertainment

5 Oceans Entertainment is an integrated platform dedicated to Asian creative industries, supporting artists and their teams in their international development. Its mission is to strengthen talent globally, increase visibility, reinforce artistic identity, and create meaningful, lasting connections with audiences. Its vision is both clear and ambitious: to promote Asian creativity, structure coherent international strategies, and open new spaces for cultural expression beyond Asia.
